## **REMARKS**

### **1. Status of Claims**

Claims 1-15 were pending in the Application. Applicant respectfully requests consideration of the enclosed remarks. Accordingly, claims 1-15 will remain pending in the application.

### **2. Responsiveness of the August 4, 2003 Amendment**

In section 1 of the Office Action, the Examiner objected to the August 4, 2003 Amendment as non-responsive and requested further explanation of the claim term "selection transaction data." In order to expedite prosecution, the following remarks are provided.

Applicant submits that the claim recites "selected transaction data." The selected transaction data is the set or a subset of the transaction data corresponding to a defined recipient. Without limiting the claims, at least one illustrative example from the specification in support of the claim may be found in FIG. 3 and associated textual description in the specification at page 6, line 16 through page 7, line 9. The selected transaction data may be selected from a group of transaction data records that include fields such as number of messages received, and segmentation data, etc.

Accordingly, Applicant respectfully requests that the Examiner withdraw the rejection. Applicants submit that the invention as presently claimed in claims 1-15 is patentable over the cited references and in condition for allowance.

### **3. Conclusion Of Remarks**

For at least the reasons stated above, it is respectfully submitted that the claims of this application are in condition for allowance and early and favorable action thereon is requested.
